

Nevada Dental ASSOCIATION

Dear NDA Members,

As we welcome a new year, I am inspired to reflect on the significance of your membership with the NDA and the vital role it plays in strengthening your community, advancing oral health in Nevada, and shaping the future of organized dentistry. By choosing to continue your journey with us, you are not only gaining access to valuable resources and support but also amplifying your influence on the future of our profession in Nevada and beyond.

Your membership in the NDA, as part of the larger ADA network, is an investment in yourself, your career, and the dental community. This tripartite structure—encompassing the ADA, NDA, and local dental societies—ensures that your voice is represented on essential issues affecting oral health at both the local and national levels.

As Nevada's dental landscape continues to transform—whether through changes in patient demographics, evolving regulatory frameworks, or new practice models—the NDA remains steadfast in our commitment to support you. Together, we uphold the traditions of our field while responding to the unique demands of today's patients and policies. When we unite as a community, our combined voice has a far greater impact.

To support you at every stage of your career, the NDA provides a wide array of services and benefits, including:

- **Peer Review** – Maintaining high standards through a fair process that serves both patients and practitioners.
- **Colleague Networking** – Fostering connections with fellow professionals across Nevada.
- **Continuing Education** – Offering accessible learning opportunities tailored to your needs.
- **Advocacy** – Championing your interests on local, state, and national fronts.
- **Exclusive Member Discounts** – Helping you save on essential resources, from insurance to supplies and beyond.

We also encourage you to make an impact by joining an NDA Council. This is a unique opportunity to contribute to the future of the NDA and collaborate with dedicated colleagues who share your passion for the profession.

Thank you for your dedication to your patients and the dental community. Your commitment is visible in the work you do, and we are proud to support you.

As we look ahead to 2025, we invite you to renew your membership and stand with us as we work toward a stronger future for dentistry. At the NDA, we are here for you—today, tomorrow, and always.

Sincerely

Marianna Kacyra

Executive Director, Nevada Dental Association

A community that truly supports and cares about you.

Take back your profession by joining the voice of Nevada Dentistry: Southern Nevada Dental Society.

We're stronger together.

Have things you want changed about Dentistry? We're legislative champions!

Your membership allows our state association, Nevada Dental Association, to have their lobby team, TriStrategies, fight for what Nevada Dentists believe is right. They crushed it in 2023, and 2025 is another legislative year. Now is the time to make your voice heard, change what you don't like about your profession, and improve patient care and access here in Nevada. We aren't just talking - please see nvda.org for our history-making wins - all because of dentists like you.

"I don't know how to get connected..."

Please don't be shy. We want to know you, help you, and grow with you! Call/text the office to talk about how you can get plugged in and join the momentum of this great organization. We'll get you connected with some of the greatest dentists in town that would love to meet you! Specialist? What better way to get to know general dentists in the area and build those lasting relationships to support the best patient care.

How are we helping Dentists?

Members form a supportive community through programs, benefits, and events we hold throughout the year. This allows our members to network and make lasting friendships that benefit members personally and professionally. We find what our dentists need to make their practices and careers successful and argue the best prices for them. SNDS helps dentists stay compliant by providing all 20 CEUs needed each year and other services that help your practice stay in the clear!

B.E.N.E.F.I.T.S.

- **20+ CEU** (this includes NSBDE required courses for Controlled Substances and Infection Control) and **CPR certification**.
- **Volunteer opportunities** - feel good about giving back to the Las Vegas community with these events that put some good in the world and foster a sense of community!
- Fun **networking events** as well as a few you can **bring the family** to!
- Add value to your practice by offering our **Association Health Plans** and **free NSBDE-required courses** to your staff.
- CE Library - can't make it to one of our CEs but need it? We have a **CE Library** that keeps you compliant. This is the only place you'll be charged a small fee outside of membership.

B.E.N.E.F.I.T.S.

- Our **Peer Review Dispute Resolution Program** is a service available to patients and member dentists to resolve disputes through mediation. The dentist or patient can initiate the process. By referring difficult cases to this no-judgment program, you can better protect your license from complaints that could have been addressed at the peer level.
- Our **mentorship program** helps you connect with real dentists in the SNDS community who have walked your path before. These incredible people are there to help with big questions, small questions, and across the career span. Need advice? You know where to go!
- We activated our **Angel Program** twice in 2024. This program helps staff the practice of member dentists who experience disasters such as injury, illness, and even death.

REMEMBER: When you're a member of SNDS, you are also a member of the Nevada Dental Association and the American Dental Association. That means you're getting all of their benefits too!

We welcome
you!
